

2024 FA€ FALL FORUM

September 27-28, 2024
The Ritz-Carlton Orlando,
Grande Lakes

BUILDING BLOCKS OF €NDODONTICS

Building a Comprehensive
Foundation for Managing
Traumatic Dental Injuries

The Annual Meeting of the Florida Association of Endodontists
www.flendo.org • 850.391.9310
Reduced fees if registered by August 2, 2024

2024 FALL FORUM SCHEDULE OF EVENTS

Friday, September 27

7:30 am–8:30 am • Breakfast in Exhibit Space / Registration

8:30 am–12 pm • Traumatic Dental Injuries, Part 1 • 3.5 CE • Nestor Cohenca, DDS, FIAD • Speaker Sponsors: Brasseler USA, Carestream Dental • Management of dental trauma remains a significant clinical challenge for healthcare providers and patients alike. Falls, accidents, and sports-related injuries are the most frequent causes of dental trauma with an estimated prevalence of 30%. Patients can present with varying injuries ranging from crown and root fractures to injuries to the supporting periodontal structure, including luxations and avulsions. Treatment is often complex, time consuming, expensive, and requires multidisciplinary approaches such as endodontic and periodontal treatments, surgery, orthodontic movements, and esthetic coronal restoration. Root resorption and ankylosis are the most common sequelae causing a major clinical challenge due to the high risk of infraposition and undeveloped alveolar bone. During this two-part course, new approaches for prevention, diagnosis, and treatment of traumatized teeth, including decoronation are discussed by Dr. Cohenca and illustrated using advanced 3D technology for diagnosis and treatment planning. He also reviews the latest revised guidelines based on current evidence-based literature supporting therapeutic modifications as well as new philosophies to be considered for the future.

10 am–10:30 am • Morning Break in Exhibit Space

12 pm–2 pm • Resident Luncheon: The Transition From Residency Into Private Practice • 2 CE • Nicholas Mastrianni, DDS • Luncheon Sponsor: Edge Endo, Endodontic Practice Partners • Speaker Sponsor: ONE ENDO • During this first-ever resident luncheon, Dr. Mastrianni delves into today's rapidly changing, dynamic landscape of the dental industry. He explores current trends shaping the field, the importance of bridging the gap between academia and private practice, and what it means to be in private practice in today's evolving climate. Dr. Mastrianni discusses empowering entrepreneurial doctors to thrive in this competitive industry, and provides insights on how to take control of your life and career as an endodontist. Join us as he uncovers key insights to achieve extraordinary success.

12 pm–2 pm • Women's Luncheon: Women's Leadership in Dentistry, Q&A Women's Leadership Panel • 2 CE • Hazel Glasper, DDS and Friends • Luncheon Sponsors: Endodontic Practice Partners, Dentsply, GentleWave • Speaker Sponsors: Care Credit, Pearl • Women need to create our seat at the table. Nobody is going to give it to us. Leadership takes heart, courage, wisdom, and growth. Being willing to recognize and capitalize on our strengths is just one aspect of leadership development. We must also examine how the models we have been given in our lives contribute to or detract from our willingness to step into leadership, develop self-awareness about our blind spots, and be willing to try new things even when they are uncomfortable so we can apply them where they can make the biggest impact. Dr. Glasper wants women to come away from this presentation connecting with the power of their voice and their vision. Our gift for inclusion and ability to form lasting relationships helps us create strategies for success that we may not tap into if we buy into the outwardly imposed limitations that often encumber women in the business arena. Join Dr. Glasper and friends at this exclusive luncheon celebrating and empowering women in dentistry.

2 pm–5:30 pm • Traumatic Dental Injuries, Part 2 • 3 CE • Nestor Cohenca, DDS, FIAD • Speaker Sponsors: Brasseler USA, Carestream Dental • This is the second part of this course: see course description above.

3:30 pm–4:00 pm • Afternoon Break in Exhibit Space

5:30 pm–7:00 pm • FAE Welcome Reception

Saturday, September 28

8 am–9 am • Breakfast in Exhibit Space

9 am–12 pm • Endodontic Management of Pulpally Involved Immature Teeth • 3 CE • Fred Barnett, DMD • Maintaining the health of dental pulp in teeth of developing children is critically important for the longevity of those teeth, and for the maintenance of the alveolar process. When such teeth become pulpally involved, whether from trauma or dental caries, prompt recognition and appropriate management are critical for their long-term success and survival. During this evidence- and case-based presentation, Dr. Barnett reviews both vital and non-vital pulp management of the involved permanent immature tooth. Vital Pulp Therapy (VPT) is discussed (apexification/apical plug and regeneration/revascularization). Upon completion of this lecture, participants should be able to properly diagnose the pulpally involved immature tooth; understand necessary procedures to optimally manage such teeth; recognize the different materials used in the management of such teeth; and understand the biological reactions of VPT and NVPT.

10:15 am–10:45 am • Morning Break in Exhibit Space

12:15 pm–1:30 pm • FAE Member Business Luncheon Meeting • Luncheon Sponsor: Kerr Endodontics

Saturday, September 28, continued

1:30 pm–3:30 pm • Treatment of Compromised Teeth: What is Possible • 2 CE • Bob Grover, DDS • In traditional dentistry, tooth extraction was considered a last resort, but the advent of dental implants has challenged this notion. Implants offer excellent functionality and aesthetics, although issues like peri-implantitis and patient sensitivities highlight the complexity of implant procedures. In “Evidence-Based Decision Making in Dentistry,” Drs. Rosen, Nemcovsky, and Tsesis stress the importance of conserving natural dentition. Deciding whether to preserve compromised teeth or opt for extraction and implant replacement presents a dilemma. The challenge lies in maintaining a compromised tooth for the long term, necessitating careful decision-making by both clinician and patient. The AAE recognizes implants’ transformative potential, but questions the trend of replacing compromised teeth with implants early on. In 2014, the AAE issued a treatment guide covering various compromised tooth scenarios, yet lacked a detailed explanation of long-term outcomes. Drawing from over three decades of experience and analysis of thousands of cases, Dr. Grover showcases treatment possibilities and outcomes for compromised teeth. Using the AAE’s guide as a foundation, Dr. Grover analyzes cases to shed light on evolving treatment modalities and their impact on long-term dental preservation.

3:30 pm–4:00 pm • Afternoon Break in Exhibit Space

4:00 pm–5:00 pm • Lessons Learned From Endodontic Follow-ups: Which Teeth Survive? • 1 CE • Bob Grover, DDS • Evidence-based dentistry prioritizes patient preferences, emphasizing a pain-free, functional, and aesthetically pleasing dentition. Patients generally prefer retaining natural teeth over implants, provided their survival rate matches that of implants. Current endodontic research shows a high success rate for treatments, whether measured by disease resolution or tooth retention, but many studies only observe outcomes over the short term – typically 1–5 years. Most patients are concerned with the long-term retention of their teeth. Curious about the variations he noticed in the survivability of endodontically treated teeth in his practice, Dr. Grover embarked on a project to ascertain the long-term survival rates of endodontically treated teeth, along with identifying which teeth are more likely to survive and the primary causes of endodontic tooth extraction. In this lecture, Dr. Grover reviews the relevant outcome literature and its implications for private practice; addresses the various cases of endodontic tooth loss; examines the significance of literature on endodontic extractions; investigates factors influencing the survival of endodontically treated teeth; discusses potential interventions to enhance tooth survival rates; and compares endodontic outcomes using conventional vs. minimally invasive endodontic techniques.

DATES TO REMEMBER

Friday, August 2, 2024 Early registration deadline and cancellation (in writing) deadline for 2024 FAE Fall Forum; \$50 late fee for registrations received after this date.

Thursday, September 5, 2024 Deadline to book sleeping room at Ritz-Carlton Orlando, Grande Lakes for special FAE rate, \$319 per night (\$40 reduced resort fee).

Friday, September 20, 2024 Late registration deadline for 2024 FAE Fall Forum. After this date, all registrations must take place on site.

FALL FORUM SPEAKER LINEUP

Fred Barnett, DMD

Nestor Cohenca, DDS

Hazel Glasper, DDS

Bob Grover, DDS

Nick Mastroianni, DDS

Fred Barnett, DMD Dental degree, certificate of endodontics, University of Pennsylvania School of Dental Medicine; former director of postdoctoral endodontics, University of Pennsylvania; chairman and program director, IB Bender Postdoctoral Endodontic Program, Albert Einstein Medical Center; fellow, International Association of Dental Traumatology, International College of Dentists, American College of Dentists; associate fellowship, WCLI Laser Institute; 2017 Edward M. Osetek Educator Award, American Association of Endodontists; 2018 Community Service Award, *Philadelphia Business Journal*; advisory board member, Dental Traumatology Journal; director, International Association of Dental Traumatology; former associate editor, Journal of Endodontics.

Nestor Cohenca, DDS Certificate of endodontics, Hebrew University, Jerusalem; former faculty, Hebrew University; past professor of endodontics and pediatric dentistry, University of Washington; professor and director of endodontics and Multidisciplinary Traumatology Unit, Seattle Children's Hospital; diplomate, Israel Board of Endodontics, American Board of Endodontics; fellow and past president, International Association of Dental Traumatology; honorary member, Omicron Kappa Upsilon National Dental Honor Society; private practice in endodontics.

Hazel Glasper, DDS Legislative committee member, Maryland Dental Action Coalition; spokesperson on oral health, American Heart Association; contributor, *Maryland Women's Journal*, *Black Enterprise Magazine*; founder, Teach Me Dental and The Comprehensive Dental Continuum; fellow, International College of Dentists, International Academy of Dental-Facial Esthetics; private practice, Revive Dental.

Bob Grover, DDS Dental degree, Medical College of Virginia School of Dentistry; former dentist, US Navy Dental Corps; certificate of endodontics, Boston University Henry Goldman School of Dentistry; assistant professor, Virginia Commonwealth University School of Dentistry Department of Endodontics; past president, Charlottesville-Albemarle Dental Association; member, International Academy of Endodontics.

Nick Mastroianni, DDS Dental degree, Stony Brook School of Dental Medicine; general practice residency, Veterans Affairs Medical Center, Northport; certificate of endodontics, Stony Brook School of Dental Medicine; healthcare provider, Remote Area Missions; co-founder, ONE ENDO.

2024 FALL FORUM SCHEDULE AT A GLANCE

Friday, September 27

7:30 am-8:30 am
Breakfast • Registration

8:30 am-12:00 pm
Traumatic Dental Injuries, Part 1 • Cohenca

12:00-2:00 pm
Resident Luncheon: The Transition From Residency
Into Private Practice • Mastroianni

12:00-2:00 pm
Women's Luncheon: Women's Leadership in Dentistry,
Q&A Women's Leadership Panel • Glasper & Friends

2:00-5:30 pm
Traumatic Dental Injuries, Part 2 • Cohenca

5:30-7:00 pm
FAE Welcome Reception

Saturday, September 28

8:00 am-9:00 am
Breakfast • Registration

9:00 am-12:00 pm
Endodontic Management of Pulpally Involved
Immature Teeth • Barnett

12:15-1:30 pm
FAE Member Business Luncheon Meeting

1:30-3:30 pm
Treatment of Compromised Teeth: What is
Possible • Grover

4:00-5:00 pm
Lessons Learned From Endodontic Follow Ups:
Which Teeth Survive? • Grover

2024 FALL FORUM REGISTRATION FORM

REPRINT FOR MULTIPLE REGISTRATIONS

A REGISTRANT INFORMATION **Must cancel in writing by August 2, 2024. \$50 cancellation fee.**

Name _____

Badge Nickname _____ Email _____

Address _____

City _____ State _____ Zip _____

Phone (_____) _____ Fax (_____) _____

B REGISTRANT FEE **Pick One**

Early Registration on or before August 2, 2024 OR Late Registration after August 2, 2024

_____ Dental Professional \$350

_____ Dental Professional \$400

_____ Resident/Full Time Faculty* \$175

_____ Resident/Full Time Faculty* \$225

_____ Non Dental Guest \$100 (no CE)

_____ Non Dental Guest \$150 (no CE)

***ONLY Full Time Faculty & Residents may register in this category.
Part Time Faculty must register as Dental Professional.**

C SPECIAL EVENTS

_____ Resident Luncheon** (Friday, September 27, 2024, 12-2 pm, Residents Only Please)

_____ Women's Luncheon** (Friday, September 27, 2024, 12-2 pm)

_____ FAE Welcome Reception (Friday, September 27, 2024, 5:30-7 pm)

_____ FAE Member Business Luncheon Meeting** (Saturday, September 28, 2024, 12:15-1:30 pm)

**** Contact FAE at endoflorida@gmail.com with dietary restrictions.
Modified menus will incur additional fees for the attendee.**
